

SLA

Service Level Agreement for Holm Security VMP | OnPrem

§1 General

1.1 Valid date

Valid from October 1st, 2021.

1.2 Parties

These terms concern the relationship between the customer ("The Customer") and the United Kingdom-based company Holm Security UK Limited with corporate identity number 13885121 ("Holm Security").

1.3 Scope

The SLA (Service Level Agreement) describes terms for compensation in the event of disturbances in the products provided and the level of service provided for support services.

1.4 Excluded products

Starting from 2021-10-01, the following products are not covered by the SLA:

- Monitoring of black-listed mail servers
- Monitoring of hacked websites

§2 Products & services

2.1 Products covered

The SLA covers the following products in the on-premise version of Holm Security's platform. Each specific product is referred to as "The Product" and all products "The Platform" from here on.

Products:
System & Network Scanning (previously called Network Scanning)
Web Application Scanning
Device Agent
Scanner Appliance

2.2 Services covered

The following services are covered by the SLA.

Services:
Standard Support
Premium Support

§3 Compensation

3.1 Reduction of the monthly charge

Claims for reduction of the monthly charge based on disturbance (compensation) shall be made in writing to no later than seven (7) days after the calendar month when the disturbance occurred.

3.2 Deduction of upcoming invoice

Compensation is paid out through a deduction of the upcoming invoice. If there's no upcoming invoice, no compensation can be paid out.

3.3 Number of compensations

If The Customer is entitled to several compensations under the SLA, only the compensation with the highest amount applies. The Customer is entitled to one (1) compensation per calendar month.

3.4 Claim report

For The Customer to be entitled to compensation, it's The Customer's responsibility to send a report to Holm Security with information about the disturbance for which the claim is made. The report should be sent to the following email address:

- support@holmsecurity.com

The following data must be provided in the report for each claim:

- A detailed description of the problem with the date and time of the event.
- Any error messages.
- A detailed description of how the disturbance caused damage for The Customer.

3.5 Relevant assistance

The Customer must, to a reasonable extent, assist Holm Security with troubleshooting for the compensation claim to be valid.

3.6 Time for planned maintenance

Planned maintenance that impacts the performance of The Platform, will as far as possible, be carried out between 00.01 – 06.30 hours (CET, Central European Time). Security Center and Organizer (“The Control Panels”) can receive maintenance at any time.

3.7 Announcements for planned maintenance

Announcements for planned maintenance are made at least three (3) days in advance through Holm Security’s support pages.

3.8 Compensation for planned maintenance

Disturbances caused by any planned maintenance do not count as a disturbance.

3.9 Disturbance because of emergency

If Holm Security assesses it to be necessary for security reasons, or similar, The Platform will be put on hold. Disturbances caused by emergency reasons do not count as a disturbance.

3.10 Disturbance because system updates

The Products System & Network and Web Application Scanning are updated on a daily basis with new vulnerability tests. During these updates, scan operations are paused for up to sixty (60) minutes. These updates do not count as a disturbance.

§4 General availability

4.1 Scope

Applies to The Platform, but not the Device Agent (see specific terms for the Device Agent).

4.2 Disturbance

These terms describe what counts as a disturbance and The Platform being unavailable. Examples of disturbances:

- Scans are not carried out from the cloud scanners or using a Scanner Appliance.
- Reports can’t be generated.
- The Control Panels is unavailable.

4.3 Compensation

Provided that The Customer fulfills its obligations, The Customer will receive a reduction of the monthly charge, related to The Platform, under the terms below.

Availability during one (1) calendar month:	Reduction of monthly charge:
Lower than 99.9% but higher than 99.0%	10 %
Lower than 99.0% but higher than 98.0%	25 %
Lower than 98.0%	50 %

§5 Device Agent

5.1 Scope

The following products are covered by these terms.

Products:
Device Agent for systems
Device Agent for personal computers

5.2 Disturbance

These terms describe what counts as a disturbance for the Device Agents. Examples of disturbances:

- Unavailable or unusable.
- Not reporting data normally on a regular interval as intended.

5.3 Minimum impacted Device Agents

For compensation to be valid, the impacted number of Device Agents must be on at least 25 % of The Customer’s total number of installed Device Agents.

5.4 Compensation

Provided that The Customer fulfills its obligations, The Customer will receive a reduction of the monthly charge, related to The Product, under the terms below.

Number of disturbances:	Reduction of monthly charge:
1-4	10 %
5-24	25 %
25 or more	50 %

§6 Support

6.1 Scope

The support is limited to The Platform and closely related topics.

6.2 Standard Support

Standard support is provided to all customers, unless otherwise agreed. The following is included in Standard Support:

- Product support from Home Security's 1st and 2nd line support related to implementation, ongoing work, and settings.
- Limited to eight (8) hours per month over the phone.
- The response time is eight (8) hours during local office hours in Sweden, Netherlands, Malaysia, and India.

6.3 Premium Support

Standard Support is included for all customers with Premium Support. The following is included in Premium Support provided by the Holm Security Customer Success Team:

- Support, training, and consultation.
- Advice related to vulnerabilities.
- Quarterly follow-up meetings.
- Limited to eight (8) hours per quarter.

6.4 Communication channels

Support takes place through designated telephone numbers, email, or web meetings.

6.5 Opening hours

Holm Security support is open on weekdays from 09.00 to 17.00 hours, local time in Sweden, Netherlands, Malaysia, and India. Support is closed on weekends and public holidays. Notification of any exceptions is given at least three (3) days in advance through Holm Security's support pages.

§7 Terms for on-premise

7.1 Updates

The Platform is updated on an ongoing basis and within the shortest possible time after a new update is released. For update to be carried out, remote access to The Platform for Holm Security is required according to designated information.

7.2 Troubleshooting

During business days, troubleshooting in The Platform should begin within forty-eight (48) hours from the time

when The Customer reported the error. Holm Security strives to resolve all type of errors in The Platform as soon as possible.

7.3 Platform expansion

The Customer can continuously increase resources in the product by adding scanning nodes (Scanner Appliances), as well as by strengthening resources in the central system of the platform. For each twelve (12) month period from the contract start date, eight (8) hours of support are included for extending The Platform.

7.4 Migration

If The Customer is using any of the products Holm Security VMP | Private Cloud or Holm Security VMP | OnPrem generation 1, The customer is obligated upgrade to Holm Security VMP | OnPrem generation 2 within six (6) months from the time of notification from Holm Security. All data will be migrated between the products by Holm Security. Product updates and vulnerability test updates for Holm Security VMP | Private Cloud and Holm Security VMP | OnPrem generation 1 will end within six (6) months from the notice for migration. The upgrade process will be fully supported by Holm Security.

§8 Terms for on-premise

8.1 Updates

The Platform is updated on an ongoing basis and within the shortest possible time after a new update is released. For updates to be carried out, remote access to The Platform for Holm Security is required according to designated information.

8.2 Troubleshooting

During business days, troubleshooting in The Platform should begin within forty-eight (48) hours from the time when The Customer reported the error. Holm Security strives to resolve all types of errors in The Platform as soon as possible.

8.3 Platform expansion

The Customer can continuously increase resources in the product by adding scanning nodes (Scanner Appliances), as well as by strengthening resources in the central system of the platform. For each twelve (12) month

period from the contract start date, eight (8) hours of support are included for extending The Platform.

8.4 Migration

If The Customer is using any of the products Holm Security VMP | Private Cloud or Holm Security VMP | OnPrem generation 1, The customer is obligated upgrade to Holm Security VMP | OnPrem generation 2 within six (6) months from the time of notification from Holm Security. All data will be migrated between the products by Holm Security. Product updates and vulnerability test updates for Holm Security VMP | Private Cloud and Holm Security VMP | OnPrem generation 1 will end within six (6) months from the notice for migration. The upgrade process will be fully supported by Holm Security.
